### Rockhouse Fire Photo Supplement

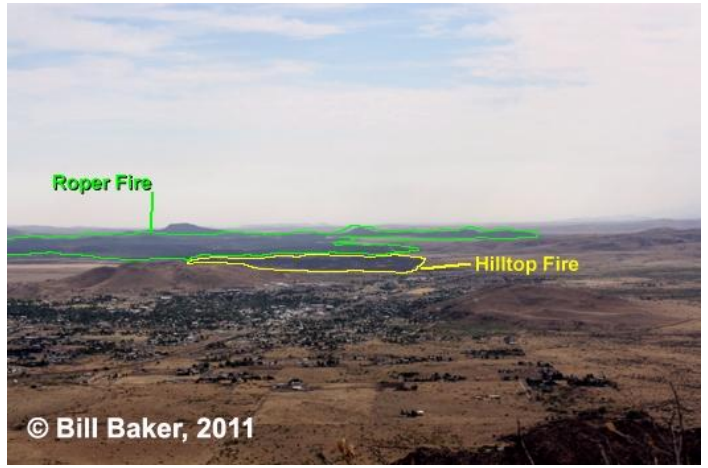

It is impossible to convey the full drama and emotional impact of a fire in a photograph. Here are a few photos that some were able to take while responding to the communications needs of the fire. Maybe in some way they can show some of the unrelenting power and destruction of this wildfire.

If you have Internet bandwidth, Tanner Quigg, of Alpine has about a 7-1/2 minute video on You Tube that is very good. Point your web browser to [http://www.youtube.com/watch?v=S6BRc3NhPAU&feature=player\\_embedded](http://www.youtube.com/watch?v=S6BRc3NhPAU&feature=player_embedded) . **Be warned there are a couple of brief, but gruesome images of burned livestock.** Tanner did well conveying the brutality of the range fire without using the images for sensationalism.

**The following images are copyright as indicated and used here with permission.**

This last image is the view of Alpine from the 146.720 repeater site on Twin Sisters Peak.
