

# DEM Exercise

## Friday September 23 1800 6pm

This exercise is nation wide and all ham operators in the BBARC 2m repeater area (including EchoLink K5FD-4 station) are encouraged to participate.

Before participating, gather the following information.

1. Your QTH latitude and longitude to two decimal places. Go to [latlong.net](http://latlong.net) web site and enter your address to get the coordinates.
2. Create a map of your QTH with a 2 mile radius circles. Use [calcmaps.com](http://calcmaps.com) and follow these steps.
3. Select the Measure Radius on Map link
4. Enter your QTH address
5. Next to Draw a Circle, select 3km from the pulldown list. 2 miles is 3.25km, so 3km is close enough.
6. The layers icon is in the upper right and looks like a stack of papers. Satellite view may help more than anything.
7. Download or print the map
8. Print the ICS213 form attached at the end.
9. Fill out the form with the following steps:
10. To field - "Bob Ward WA5ROE"
11. From field - your name and call sign
12. Subject field - "State Wide Exercise"
13. Body field - begin with "This is an exercise." List with information about what is within your 2-mile radius. "1. Schools " followed by count of public, private, and universities. "2. Hospitals " followed by count of hospitals. "3. Power Plants " followed by count of power plants. "4. Water Treatment Plants " followed by count of water treatment plants. "5. Storm Shelters " followed by count of storm shelters. "6. Coordinates " followed by the latitude and longitude of your QTH.

On Friday night at a 1800, a roll call will be taken to gather the information off the form.
